**St. James’s Hospital**

St James’s is a university teaching hospital, affiliated with Trinity College Dublin. St. James’s Hospital is a fully integrated multi-disciplinary working environment where all care is provided through multi-disciplinary team working. In particular, the clinical directorate structure operating within the Hospital supports multi-disciplinary team working. Doctors, nurse, dieticians, medical bioengineers, microbiologists and primary care team consultants and other allied healthcare professionals work in a collaborative fashion with the intensive care team to ensure the best interests of patients in the intensive care are met.

The Directorate has agreed a clinically-led management cycle for continuous improvement for adoption across its specialties. Clinical Specialty Leads have been appointed with a common structure and data-driven approach to specialty and directorate operations meetings.

**SACC Directorate**

The Department of Anaesthesia, Intensive Care and Pain Medicine at St James’s Hospital provides the anaesthesia, intensive care and pain medicine services at St. James’s Hospital and is part of the SACC Directorate. St James’s is the largest university teaching hospital in Ireland.

There are 12 full-time and 11 shared consultants in the Department. There are sixteen theatres, including a stand alone Burns theatre, a stand alone endovascular suite and a dedicated stand alone Day Surgery Centre, with two major and one minor theatres and a pre-operative assessment unit.

The Intensive Care service covers the General Intensive Care Unit (16 beds), High Dependency (3 beds), Cardio-Thoracic ICU (6 beds), Burns Unit (3 ventilated beds), in addition to ventilated patients in the Coronary Care Unit and provision of an emergency consult service to the wards and Emergency Department. There are seven consultants who have a day time commitment to Intensive Care. The appointee will join the daily Intensive Care roster which is un on a flexible basis, with a commitment to general anaesthesia services. The successful applicant will also contribute to the Intensive Care on-call roster.

The Department provides anaesthesia for adult patients in the following disciplines: General surgery, Cardio-thoracic, Vascular, Otorhinolaryngology, Plastic and Reconstructive surgery including Burns, Maxillo-Facial, Orthopaedics and Gynaecology. There is a large Oncological surgery component in all of these disciplines. In addition the ICU admits trauma and acute medical patients. The ICU takes nation-wide referrals.
The Department is recognised for training by the following bodies:

- College of Anaesthetists for BST and SpR training
- Royal College of Surgeons in Ireland for two months' BST in Intensive Care Medicine
- Royal College of Physicians in Ireland for SpR training in Intensive Care Medicine
- Irish Board of Intensive Care Medicine
- Australian New Zealand Joint Faculty of Intensive Care Medicine

There are 28 junior doctor training posts in the Department. These include trainees in anaesthesia, intensive care and pain medicine, emergency medicine, general internal medicine, and surgery. There is a Fellow in Intensive Care medicine, a registrar completing special interest training, and a Fellow in Pain Medicine.

There is an active teaching programme in which the successful applicant will participate. The Department is involved in teaching under-graduate medical students, post-graduate anaesthesia and intensive care trainees and nursing and paramedical staff. The Unit also participates in the Primary and Final Fellowship pre-examination courses and in the Intensive Care Diploma Course. There are three College tutors who supervise training.

The research activities of the Department are steadily increasing and there are three research Fellows, undertaking doctorates, attached to the Department.
