## Key Duties, Roles and Responsibilities

The purpose of this CNS post is to deliver care in line with the five core concepts of the role set out in the Framework for the Establishment of Clinical Nurse/Midwife Specialist Posts, 4th edition, National Council for the Professional Development of Nursing and Midwifery (NCNM) 2008

The post holder’s practice is based on the five core concepts of the CNS role as defined by the NCNM 4th edition (2008) in order to fulfil the role. The concepts are:
- Clinical Focus
- Patient/Client Advocate
- Education and Training
- Audit and Research
- Consultant

### Clinical Focus

The CNS will have a strong patient focus whereby the specialty defines itself as nursing/midwifery and subscribes to the overall purpose, functions and ethical standards of nursing/midwifery. The clinical practice role may be divided into direct and indirect care. Direct care comprises the assessment, planning, delivery and evaluation of care to the patient, family and/or carer. Indirect care relates to activities that influence and support the provision of direct care.

### Direct Care

- To provide specialist knowledge, expertise and care to patients acute, chronic and cancer pain. This will be at a higher level of autonomy and decision-making in patient management as defined by protocols.
- To assess, plan, deliver, and evaluate care to patients and their families, in the inpatient and outpatient setting.
- To monitor patients on an ongoing basis, to evaluate outcomes and adjust nursing care practise to ensure optimum co-ordination and delivery of care.
- To evaluate and develop professional scope of practice through ongoing evaluation and monitoring of the role of the CNS.
- To attend multidisciplinary meetings and ward rounds, and participate in team discussions regarding treatment needs as appropriate.
- Contribute where appropriate in formulating or updating policies and procedures, which comply with agreed best practices.
- Work with the multidisciplinary clinical team to meet the needs of patients and their families. Evaluate clinical problems in conjunction with the medical team; co-ordinate investigation, therapy and patient follow up.
- Demonstrate vision, innovation and flexibility in nursing practice.
- Formulate discharge plans, which ensure continuity of patient care by liaising with other professionals in the hospital and community.
- To work in collaboration with community care and primary care services offering specialist advice and develop education programmes.

### Patient/Client Advocate

- Communicate, negotiate and represent patient’s family and/or carer values and decisions
in relation to their condition in collaboration with MDT colleagues in both Primary and Secondary Care as appropriate

- Develop and support the concept of advocacy, particularly in relation to patient participation in decision making, thereby enabling informed choice of treatment options
- Respect and maintain the privacy, dignity and confidentiality of the patient, family and/or carer
- Establish, maintain and improve procedures for collaboration and cooperation between Acute Services, Primary Care and Voluntary Organisations as appropriate
- Proactively challenge any interaction which fails to deliver a quality service to patients

**Education & Training:**
- Maintain clinical competence in patient management within Pain Medicine nursing, keeping up-to-date with relevant research to ensure the implementation of evidence based practice.
- Provide the patient, family and/or carer with appropriate information and other supportive interventions to increase their knowledge, skill and confidence in managing their condition.
- Provide mentorship and preceptorship for nursing colleagues as appropriate.
- Participate in training programmes for nursing, MDT colleagues and key stakeholders as appropriate.
- Create exchange of learning opportunities within the MDT in relation to evidence based Pain Medicine delivery through journal clubs, conferences etc.
- Develop and maintain links with Regional Centres for Nursing & Midwifery Education (RCNMEs), the Nursing and Midwifery Planning and Development Units (NMPDUs) and relevant third level Higher Education Institutes (HEIs) in the design, development and delivery of educational programmes in Pain Medicine.
- Be responsible for addressing own continuing professional development needs

**Audit & Research:**
Caseload.
- Maintain a record of clinically relevant data aligned to National Key Performance Indicators (KPI’s) as directed and advised by the ADON/DoN/Lead Consultant
- Identify, initiate and conduct nursing/midwifery and MDT audit and research projects relevant to the area of practice.
- Identify, critically analyse, disseminate and integrate best evidence relating to Pain Medicine in practice
- Contribute to nursing/midwifery research on all aspects of Pain Medicine.
- Use the outcomes of audit to improve service provision
- Contribute to service planning and budgetary processes through use of audit data and specialist knowledge
- Monitor, access, utilise and disseminate current relevant research to advise and ensure the provision of informed evidence based practice

**Audit expected outcomes including:**
- Collate data (insert agreed KPIs/clinical targets) which will provide evidence of the effectiveness of the CNS interventions undertaken - Refer to the National Council for the Professional Development of Nursing and Midwifery final report - Evaluation of Clinical Nurse and Midwife Specialist and Advanced Nurse and Midwife Practitioner roles in Ireland (SCAPE Report, 2010) and refer to the National KPIs associated with the speciality. They should have a clinical nursing/midwifery focus as well as a breakdown of activity - patients seen and treated.
- Evaluate audit results and research findings to identify areas for quality improvement in collaboration with nursing/midwifery management and MDT colleagues (Primary and Secondary Care).
**Consultant:**
- Provide leadership in clinical practice and act as a resource and role model for Pain Medicine nursing.
- Generate and contribute to the development of clinical standards and guidelines and support implementation
- Use specialist knowledge to support and enhance generalist nursing/midwifery practice
- Develop collaborative working relationships with local CNS, Registered Advanced Nurse/Midwife Practitioner/MDT colleagues as appropriate, developing person centred care pathways to promote the integrated model of care delivery.
- With the support of the ADON, attend integrated care planning meetings as required
- Where appropriate develop and maintain relationships with specialist services in voluntary organisations which support patients in the community.
- Liaise with other health service providers in the development and on-going delivery of the National Clinical Programme model of care.
- Network with other CNS in Pain Medicine and related professionals associations.

*The above Role Profile is not intended to be a comprehensive list of all duties involved and consequently the post holder may be required to perform other duties as appropriate to the post which may be assigned to him/her from time to time and to contribute to the development of the post while in office. This Role Profile will be subject to review in the light of changing circumstances.*

---

Appendix 1

Where applicants are in the process of completing a relevant Masters Degree or Post Graduate Diploma/Higher Diploma level (QQI) major award, relevant to the area of specialist clinical practice at level 8 or above, he/she will be required to furnish HEI formal transcripts detailing the modules they have successfully completed.

The applicant must demonstrate that they have successfully completed the required number of relevant modules that equates to a formal recognised post-registration qualification at Post Graduate Diploma/Higher Diploma level (QQI), or ECTS Credits equivalent to Post Graduate Diploma level as deemed by the HEI, relevant to the area of specialist clinical practice at level 8 or above. Refer to your local Director NMPD for guidance in relation to assessing individual cases.

In exceptional circumstances where such a course of study relevant to the specialist area has not been developed and is not available, the following guidance should apply:

Where the applicant has achieved a formal recognised post-registration major award in nursing/midwifery practice at level 8 or above, not in the area of specialist practice, the applicant must additionally demonstrate the following:

The applicant must have successfully undertaken formal recognised post-registration clinical education and have acquired a QQI award e.g. certificate, module at level 8 or above relevant to the area of specialist practice – name the area prior to application.

Or

In very exceptional circumstances where a QQI award relevant to the area of specialist practice is not available, the applicant must demonstrate that he/she has successfully undertaken a substantial course/programme relevant to the specialist practice prior to application, which should be either academically accredited or endorsed by a relevant professional association.

And

The applicant must demonstrate relevant and ongoing continuous professional development (CPD).
