

## What our graduates say about the course:

*“This course has hugely added to my knowledge of the use of medicines. I learned about medicines from all perspectives – their development and marketing and the role of the various players such as regulators, academia, consumers and the pharmaceutical industry.*

*I would strongly recommend the course to anyone who prescribes medicines.”*

*Kevin Connolly (Postgraduate Diploma in Pharmaceutical Medicine graduate)*

Dr. Kevin Connolly is a Consultant Paediatrician in Portiuncula Hospital. He is a member of the Irish Medicines Board’s Advisory Committee, the National Immunization Committee, and the Paediatric Expert Committee [PDCO] in the European Medicines Agency.

*"An immense experience, resulting in a formidable armory of knowledge in all aspects of the Pharmaceutical Industry which would be of great benefit to anyone pursuing a career in this field. The quality of the presentations and the line-up of prestigious speakers meant that students constantly received cutting edge information. The class interactions along with lasting friendships made for an overall invaluable experience!"*

*Janet Green (MSc in Pharmaceutical Medicine Graduate)*

Janet Green MSc  
Qualified Person for Pharmacovigilance (QPPV),
