LEARNPATH – THE ST. JAMES’S HOSPITAL LEARNING MANAGEMENT SYSTEM
Welcome to The Centre for Learning and Development (CLD) Prospectus which details the variety of learning and development opportunities being provided in the coming year. There is a wide range of training for St James’s Hospital staff in both eLearning and face to face courses and CLD is committed to the provision of high quality, short education/training development, blended programmes, accessible and responsive to the needs of staff across all disciplines in St James’s Hospital.

In addition, CLD provides more advanced accredited programmes in partnership with awarding bodies and third level institutions such as QQI and the School of Nursing and Midwifery, Trinity College Dublin.

A number of these programmes are also open to Health Service Provider staff within SJH regional and catchment areas.

Programmes delivered in CLD are facilitated by instructors who are leaders in their chosen field and passionate about their role as educators. We also bring together teams from different disciplines and external notable instructors to deliver essential training.

For further information on courses and to find out when and where training is available, please log onto LearnPath, https://sjh.learningpool.com/login/index.php the St James’s Hospital Learning Management System (LMS). On LearnPath you’ll get access to a range of interactive & engaging learning to ensure you have the necessary skills to successfully fulfil your role. You will also be able to self-book onto training courses at CLD, complete all your mandatory training requirements, and record evidence of learning for Continuous Professional Developmental purposes.

I hope you find the course options of interest and if you have suggestions of other learning needs, please let me know and I will review your requirements – your feedback is very welcome on all events at CLD.

I wish you well in your studies and look forward to welcoming you to CLD.

Avril Lowry
Director of Learning and Development
