ST JAMES'S HOSPITAL

Trinity College Dublin  
Coláiste na Tríonóide, Baile Átha Cliath  
The University of Dublin

## What we do best

Nursing care on the ward is organised and provided using a team-led approach. The specific plan of care for each patient is formulated in collaboration with members of the multidisciplinary team in the hospital. This ensures that the provision of patient care is both individualised and holistic. Patient education is emphasised by staff on the ward to enable patients to self-manage their illness and prevent further complications.

The clinical nurse managers and staff endeavour to provide an effective clinical learning environment for all who work on the ward.

## Overview of the department

Margaret Kehoe Ward forms part of the Medical Directorate within St James's Hospital. The ward consists of 34 beds and specialises in Genitourinary Medicine and Infectious Diseases. The ward also manages the care of patients with acute and chronic medical conditions, such as sepsis, diabetes, congestive cardiac failure and dementia.

## Testimonials

Patient feedback:

"Nurses give great care"

"Nurses are very friendly"

"They have good team work"
